1) that the manuscript has not been submitted to various journals for simultaneous consideration;
2) that it is not under consideration for publication anywhere else;
3) that it has not been published previously (partly or in full), unless the new work is an expansion of previous work;
4) that its publication has been approved by all the co-authors, if any, as well as by the responsible authorities - tacitly or explicitly - at the institute where the work has been carried out;
5) and that the use of generative AI or AI-assisted tools for data analysis and insight generation in the research process is prohibited. The manuscript must disclose any use of AI technologies, and a statement will appear in the published work.

By signing below, I also acknowledge that I am fully aware

1) that the publisher will not be held legally responsible should there be any claims for compensation;
2) and that if there is a suspicion of misconduct, the journal will carry out an investigation and this may lead to "an immediate rejection of the manuscript", "a placement of an erratum with the article", or "a complete retraction of the published article', depending on the publication stage and the nature of the severity of the infraction.

I have read and fully understand all of the above statements.
